# Lotus Traveller

- <http://www-306.ibm.com/software/lotus/products/notes/traveler.html>
- <http://www-128.ibm.com/developerworks/lotus/library/domino8-traveler/>

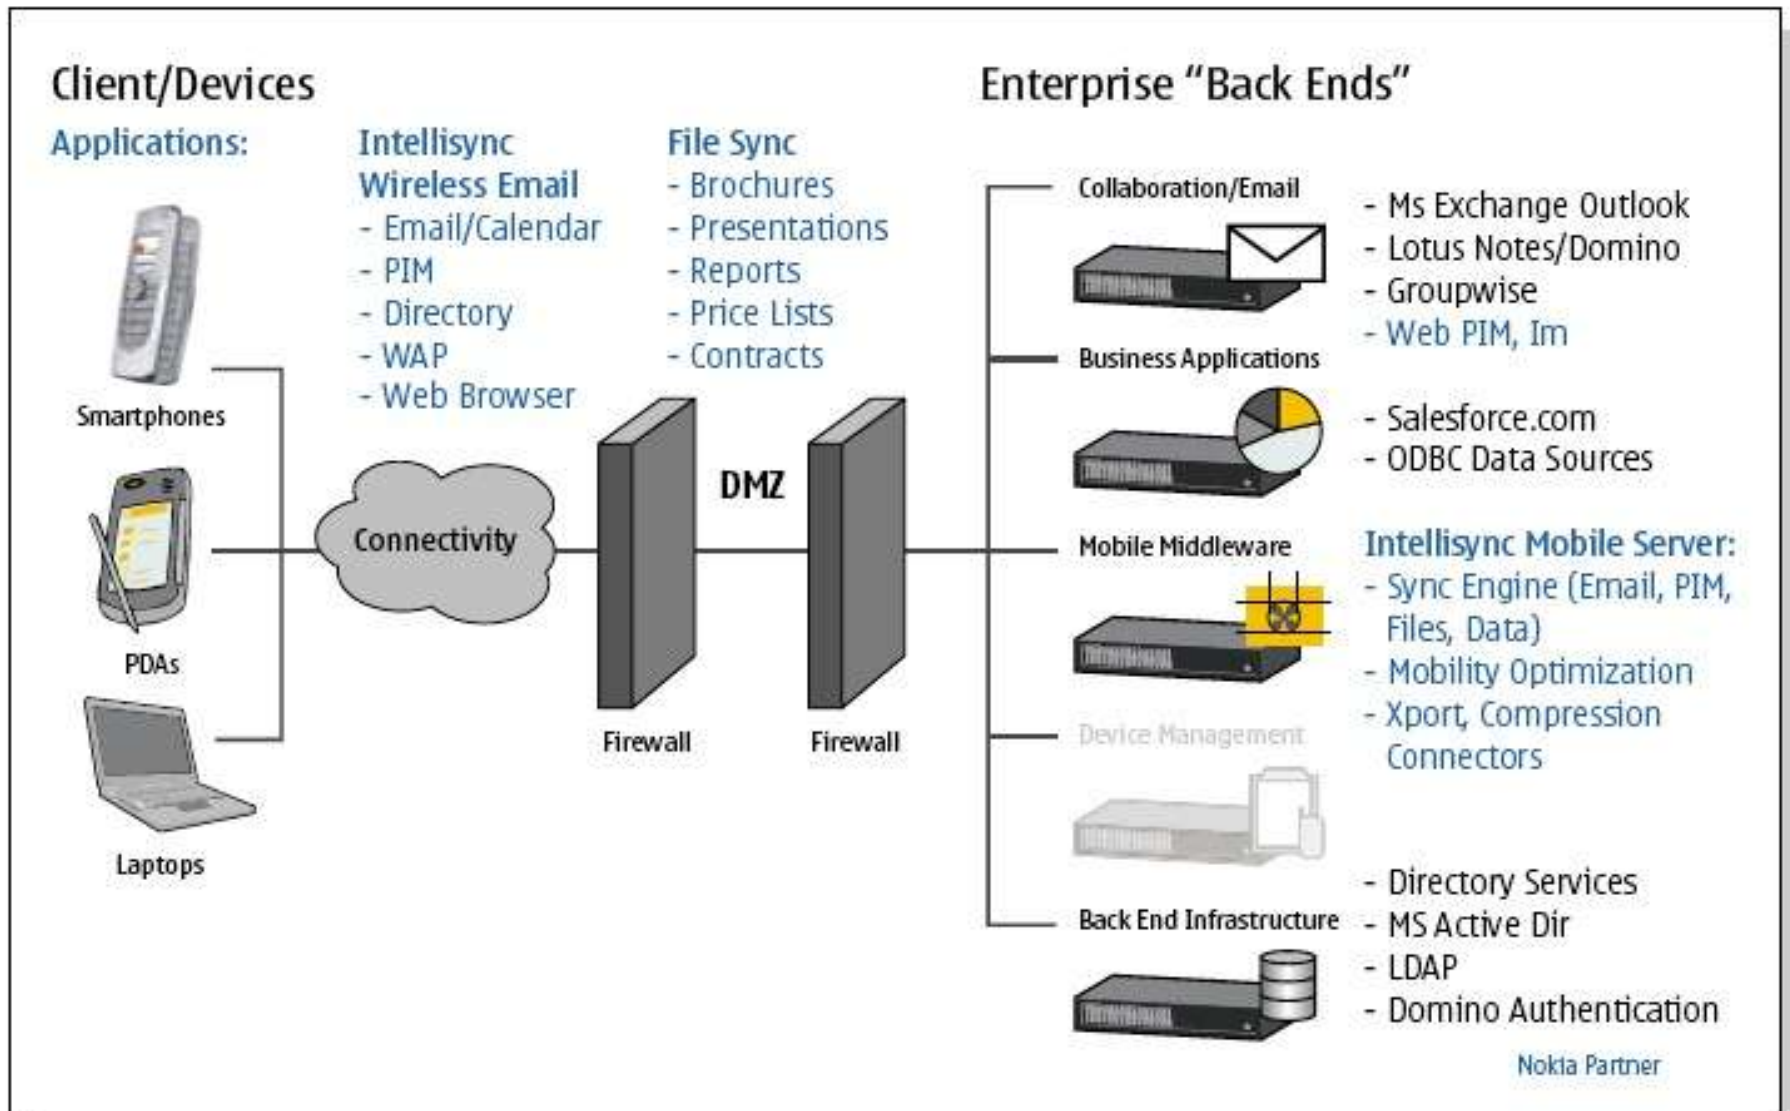

# Demo

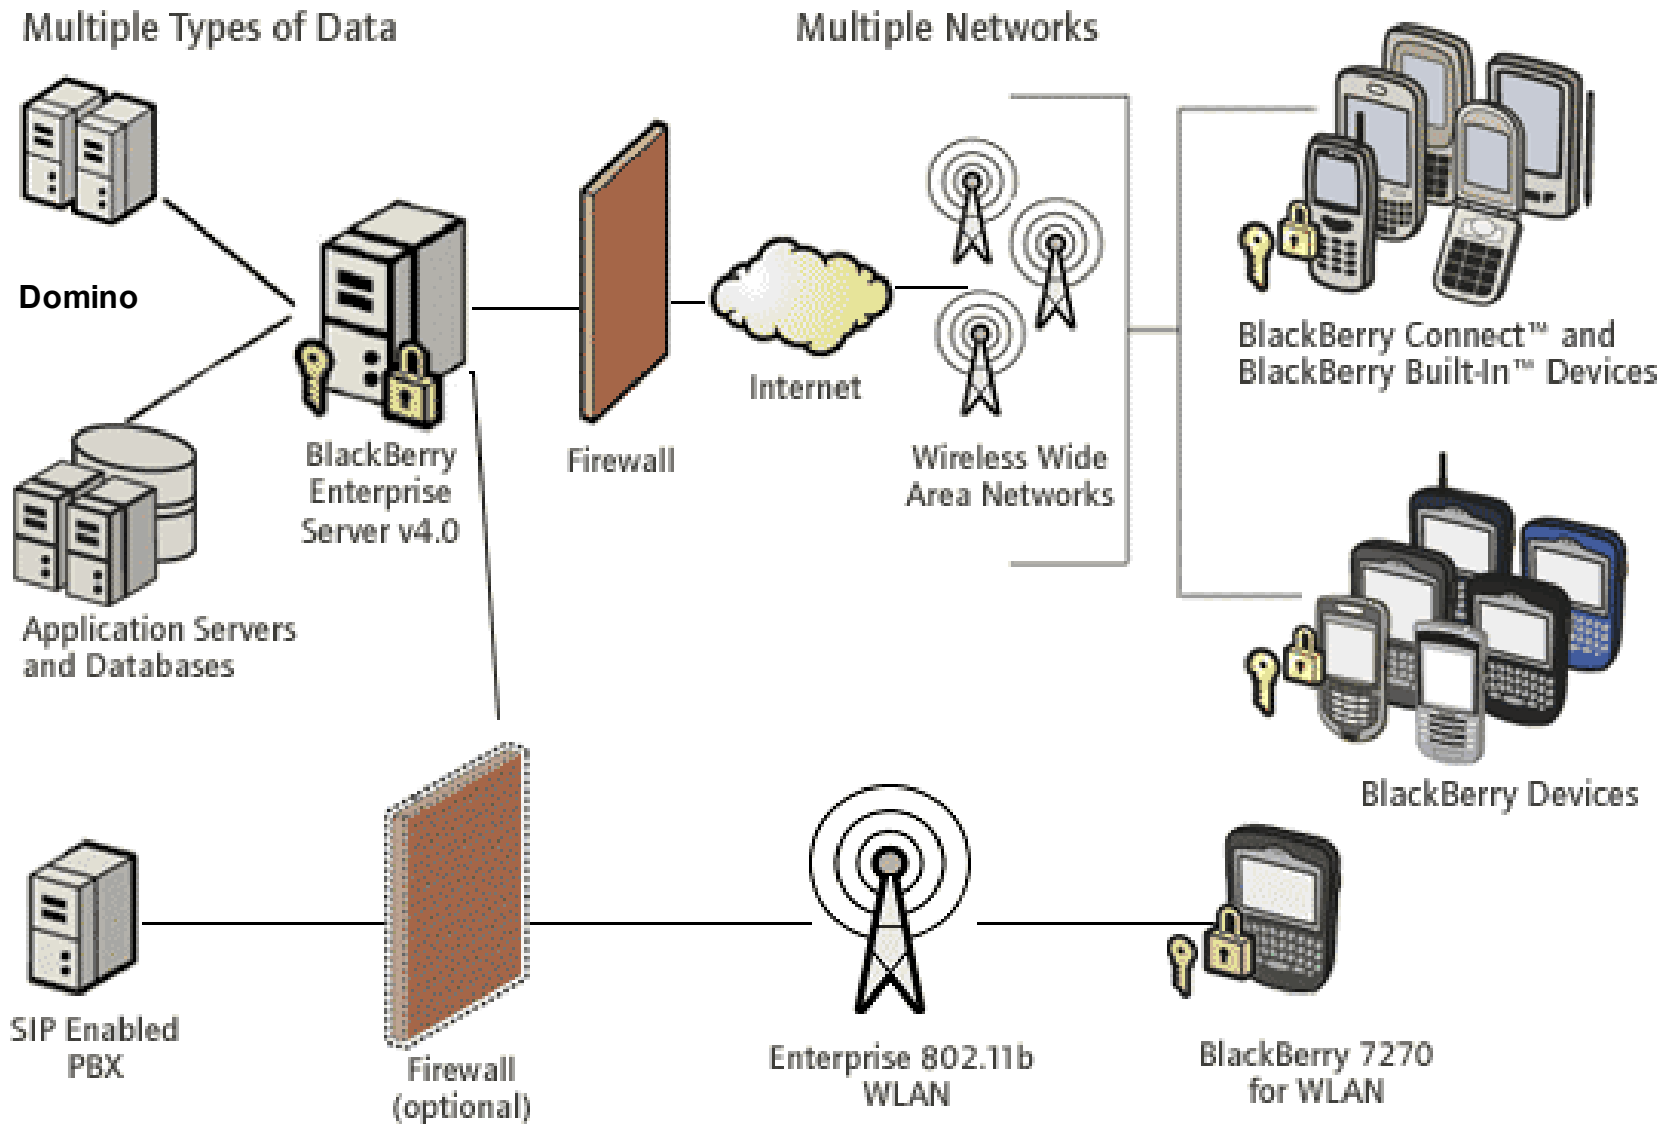

# Funambol.com

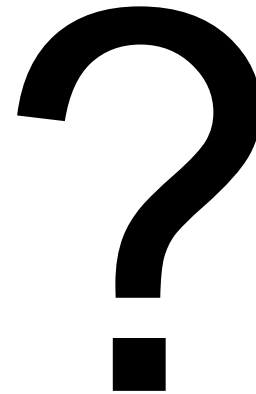

# Nokia Intellisync

# Blackberry

# Sametime

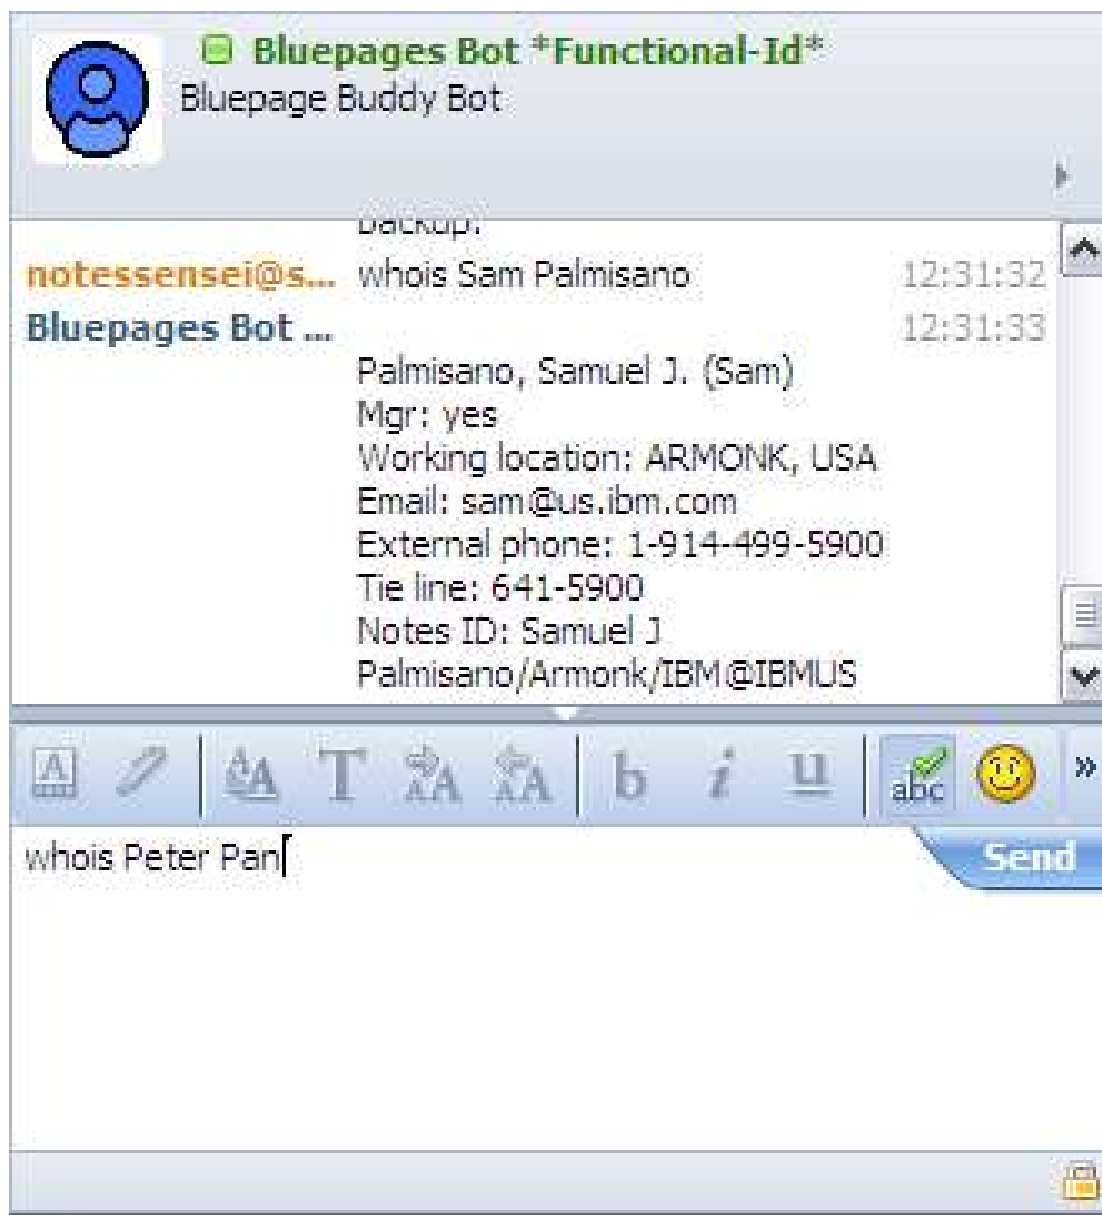

- Available on:
  - Windows Mobile
  - Symbian
  - Palm
  - Anything that runs a Java applet
  - Anything that can run Ajax
- Reconsider your UI approach
  - You don't have space on a mobile screen

# Sametime BOTS

- Use Sametime Toolkit (Sorry Java only)
- Use BotStation.com STAgent
- Use instant-tech.com ST Agent Framework

# Sametime BOTS

The screenshot shows a chat window with a contact named "Bluepages Bot \*Functional-Id\*" (Bluepage Buddy Bot). The chat history includes a "Backup:" message and a "whois Sam Palmisano" command from "notessensei@s...". The bot's response provides the following details:

- Palmisano, Samuel J. (Sam)
- Mgr: yes
- Working location: ARMONK, USA
- Email: sam@us.ibm.com
- External phone: 1-914-499-5900
- Tie line: 641-5900
- Notes ID: Samuel J
- Palmisano/Armonk/IBM@IBMUS

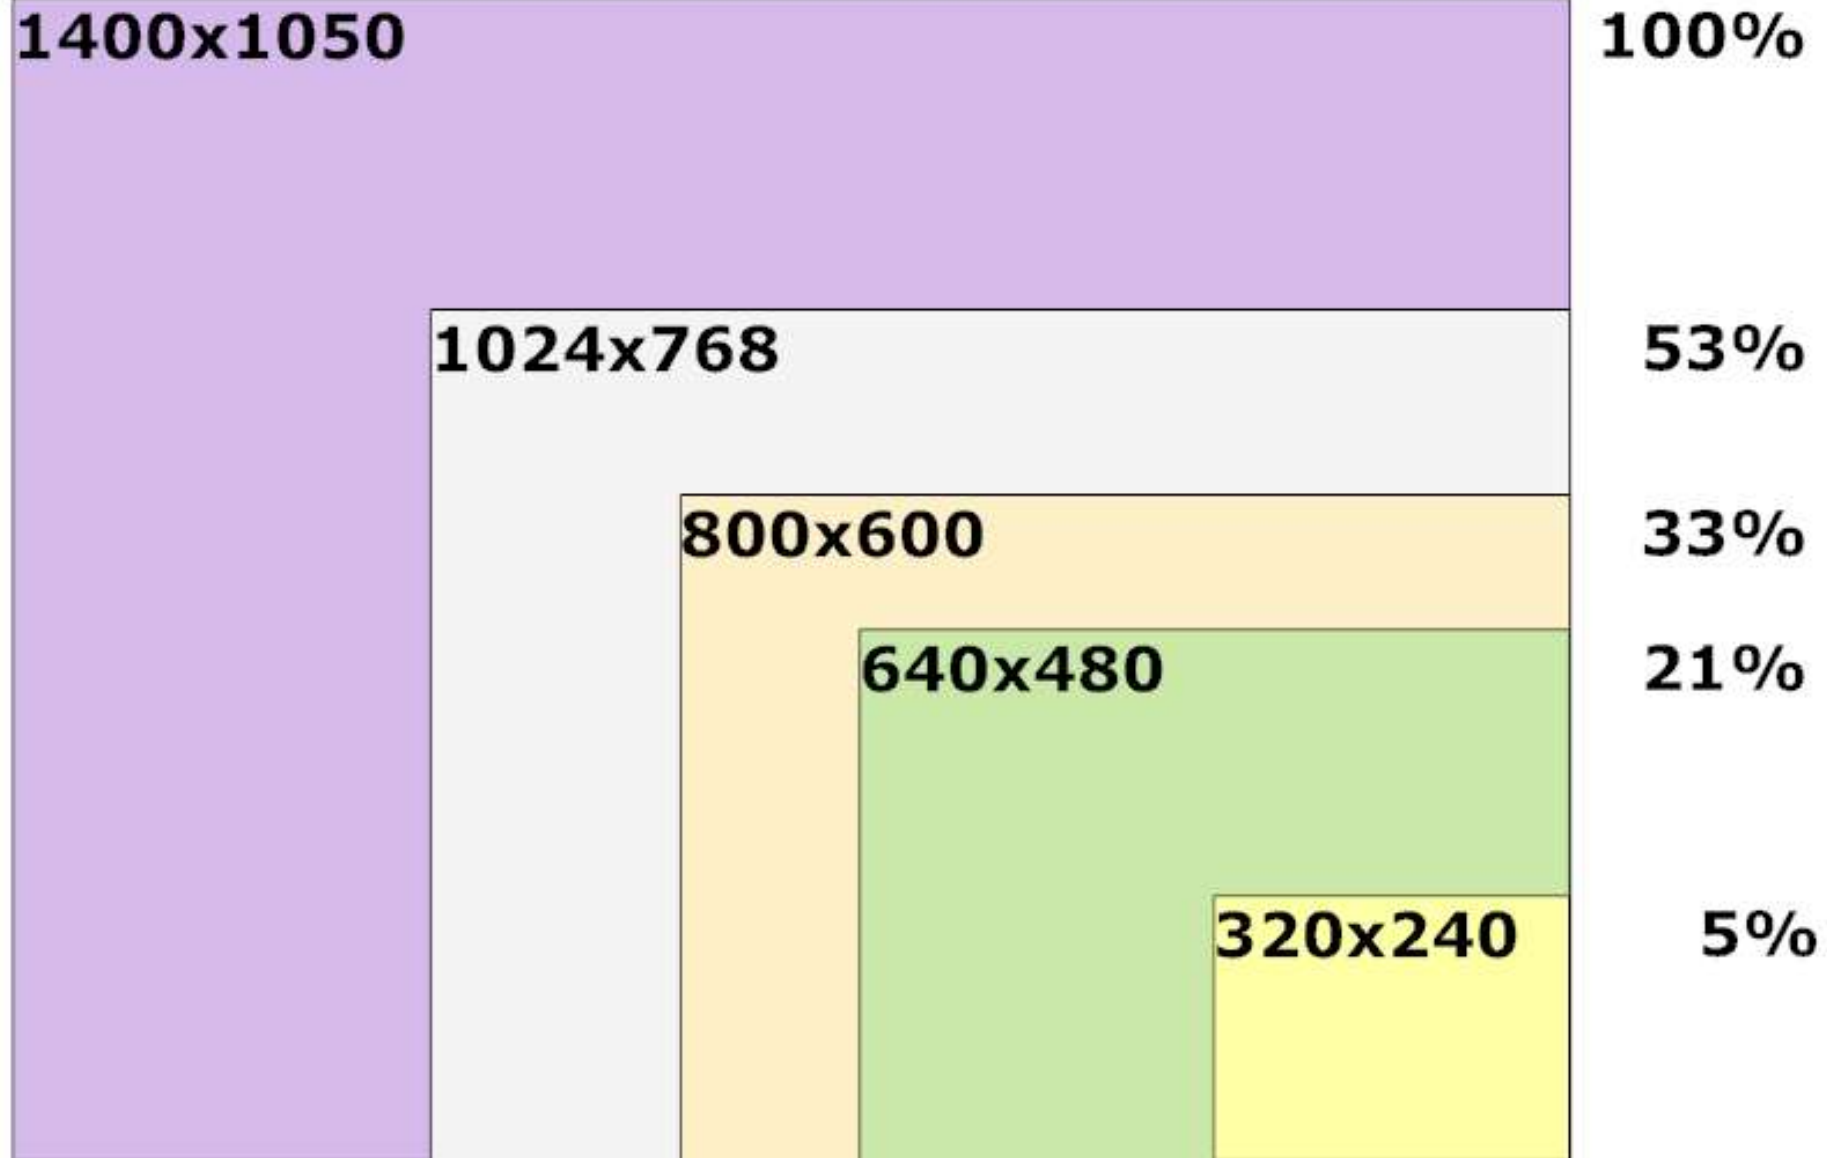

The chat input field contains the text "whois Peter Pan[" and a "Send" button is visible. The toolbar includes icons for text formatting (bold, italic, underline), text color, background color, and a smiley face.

# Domino Applications

# Homework first

- Synchronize or Online Access
- Device Selection
  - Screen
  - Input method
  - Capabilities
- Frequency of change
- Back-end process

# Screen sizes

Flexibility

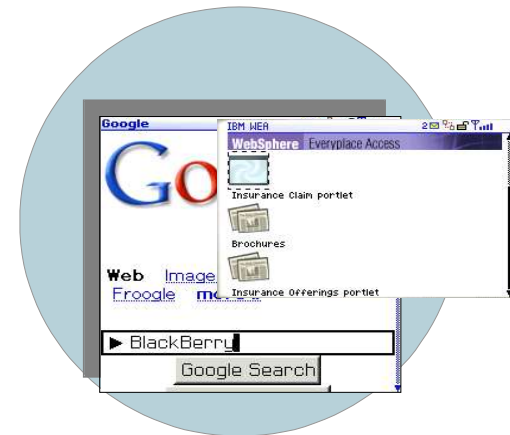

Rich Java J2ME Client

### MDS 4.1 Web Services Mobilization

### HTML Browser

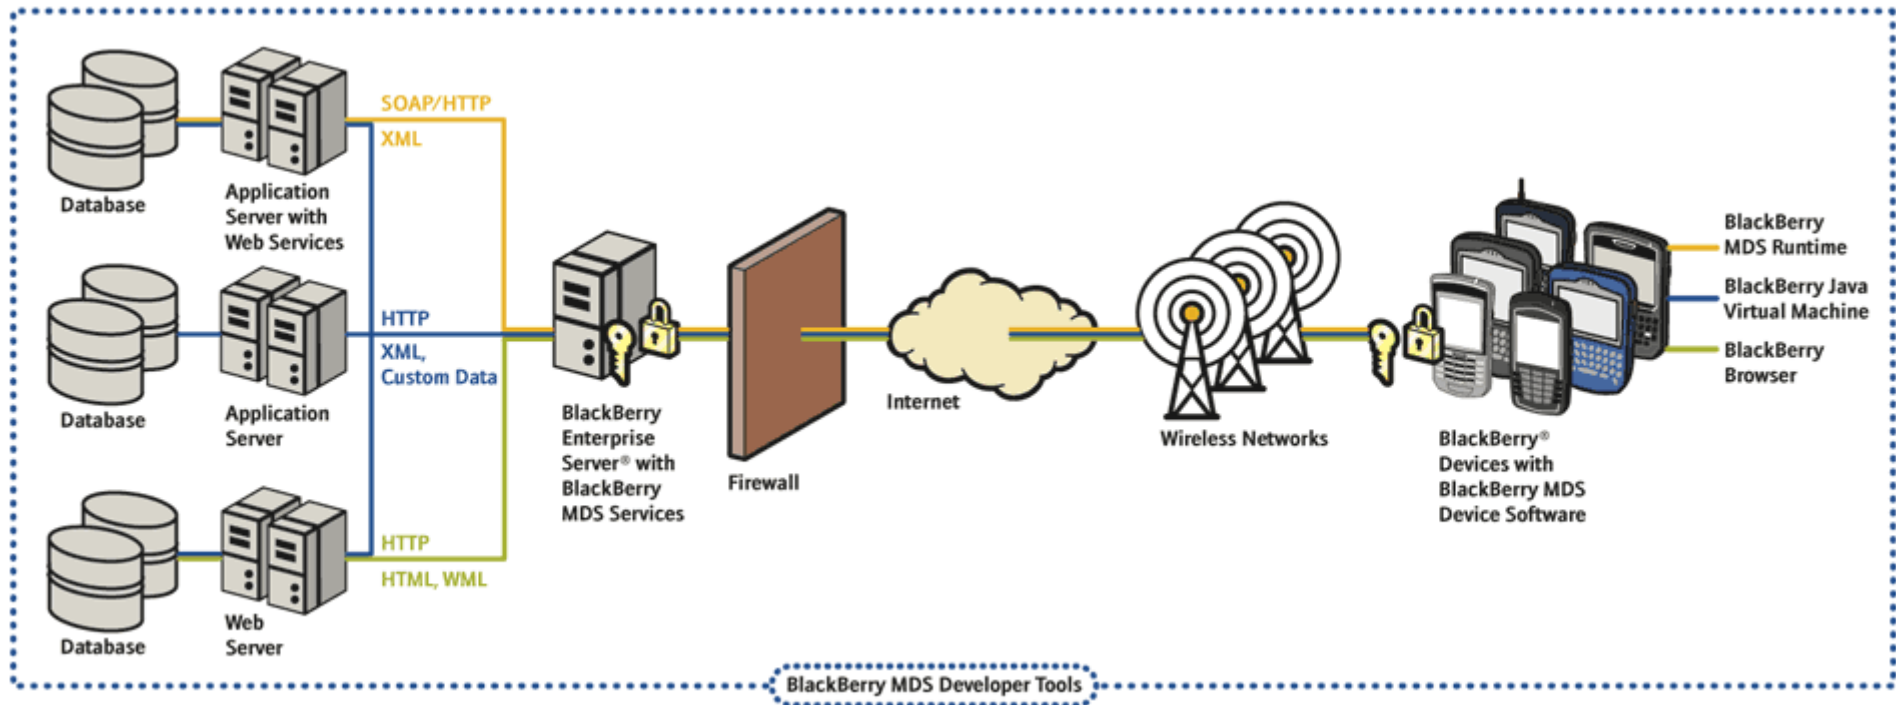

Ease of Development
