Co-operative
Bank Ltd.

Smarter Systems
for a Smarter Planet

Discover optimized, integrated, proven systems
for your business

The client

A pre-independence co-operative bank in India, that aims at supporting under-privileged associates of the co-operative by endorsing deposits and raising capital resources

Client challenges

- To revamp outdated IT infrastructure to support its core banking application, Genius
- To provide IT support to its IBM and HP instituted technologies
- To set up a disaster recovery system

Solution – Products deployed

• IBM BladeCenter H Chassis

- 10 **IBM BladeCenter HS22** blade servers to consolidate 20 pre-existing servers – six to run core banking application, four to run bank's internal applications and host database servers
- **IBM System x3650 M2** server for on-site external backup in primary data center
- Disaster recovery site
 - Two **BladeCenter H Chassis**
 - 20 **BladeCenter HS22 blade servers**
 - Storage and backup technologies
 - **IBM System Storage DS3950**
 - **IBM System Storage EXP395 Expansion Unit**
 - **IBM System Storage DS4700 Express disaster recovery device**
 - **IBM System Storage EXP810 Expansion Unit**
 - **IBM System Storage TS3100 Tape Library**

Benefits to the client

- Distinct primary and disaster recovery sites with upgraded infrastructure
- Reduced power consumption and operational costs
- Improved availability of systems
- Reduction in rack space and optimized data storage
